

AVANCE DE PROYECTO N° 1

Introducción:

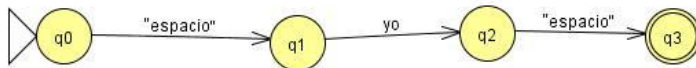

En el proyecto abordado por nuestro grupo de trabajo se nos planteó abordar el algoritmo de porter, de manera de entender de qué se trata y luego poder programar el mismo en el lenguaje de JAVA.

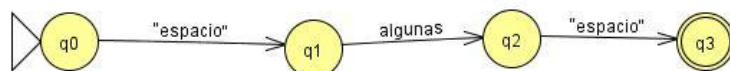

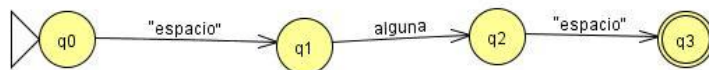

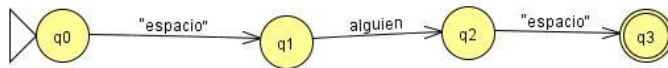

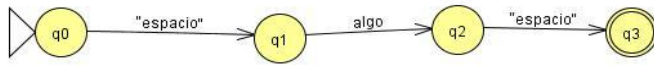

En este avance de proyecto podrán encontrar todos los autómatas para reconocer los sufijos, prefijos, pronombres y artículos más usados, con el fin de luego en el programa en si poder eliminarlos y proceder a entregar la información requerida sobre el texto.

Autómatas:

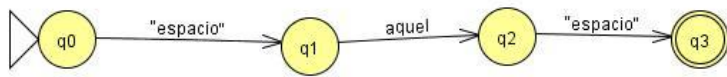

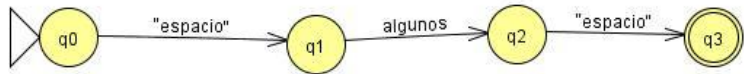

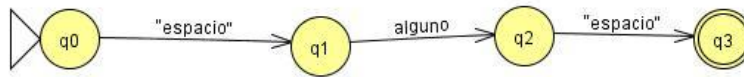

Para la construcción de los autómatas se utilizará el software JFlap, a continuación, se adjuntan las imágenes de los autómatas de los prefijos, sufijos, pronombres y artículos más usados:
